

Mosquito Problems Start At Home

Recycle old bottles, buckets and cans.

Fix leaky faucets and sprinklers.

Get rid of used tires properly.

Empty water from flower pot dishes.

Don't Give Mosquitoes A Chance!

Mosquitoes need water to breed and grow.

It doesn't take much water and it doesn't take much time.

So, almost anything that will hold water for one week or more can produce these pests.

Many places around your home may be causing mosquito problems.

Get rid of places where water collects and mosquitoes won't have a chance!
